

Setting up your Purdue Career Account (student computer access)

Your personal Career Account will give you online access to everything you are entitled to as an official Purdue student. It is required for you to access your fee statement and @purdue.edu email as well as your grade at the end of the term. You can also access the library system and if eligible, purchase software at a discount. Not all students are eligible for the software discount. Once you have been admitted, click [here](#) to verify your eligibility. Non-degree seeking students are not eligible for software discounts.

Please note, the majority of Purdue communication is sent electronically.

The following instructions are for students who have applied and been admitted through the Purdue Graduate School:

- Once you are admitted, you will receive an e-mail from Graduate School regarding your admission. You must log back in to “Apply Yourself” and click on the decision link. This will take you to a letter; on the second page of this letter is **your PUID number**.
- Logging in and viewing this letter triggers a second e-mail that will be sent within one to two days; it provides your **career account setup password**.
- Go to www.purdue.edu/apps/account/AccountSetup.
If you have any questions, this page is a step-by-step guide:
<https://www.purdue.edu/apps/account/docs/AccountSetup/AccountSetupHelp.jsp>
- Go to <https://mypurdue.purdue.edu> (do not include www) and enter your NEW login (user name) and password to access **your student information**.
- Please note that for security reasons, you must change your password every 120 days. This can be done on your myPurdue page.

Thank you for your interest in Purdue! Please let us know if we can be of additional assistance.
